

Research Folder

Left side of file folder has 3 colored question index cards. Each card contains a question students want to find the answer to through research about their topic.

Right side of file folder has 4 white cards index each labeled with a source of information, i.e. books, periodicals, internet, CD-film-video. Students are to use these cards to record where their information came from for their project.

Right side at bottom has an envelope taped on to hold the cards with information on them. These cards are color-coded to match questions.

Students write one question on each of the colored cards. As they research their answers they list on the appropriate white card where their information was found. Students are to write the information they find on another colored index card that is the same color as the question that goes with their information.

The colored information cards are then placed in the envelop for safe keeping.

Students can use the cards in the envelope to help develop their project, whether it is a report, pamphlet, or poster, etc.

Books

Handwriting practice lines for the word 'Books'. The page contains four sets of horizontal lines, each consisting of a solid top line, a dashed middle line, and a solid bottom line.

Books

Handwriting practice lines for the word 'Books'. The page contains four sets of horizontal lines, each consisting of a solid top line, a dashed middle line, and a solid bottom line.
